PROJECTS

Pig Game

Jul 2023 - Jul 2023

https://mustansirbharmal-portfolio.github.io/PigGame.github.io/

By the way this is not a very big project but yes I make this game by using JavaScript and really work hard to make this game and to work on it's logic. But, before playing the game just check out the rules of this game at Google 😁 if you don't know

Tours and Travels Website

Mar 2023 - Mar 2023

https://mustansirbharmal-portfolio.github.io/musttours/

I created a tours and travels website by using HTML,CSS, Bootstrap and Javascript. In this website there is animation, hover, functional form, social media links etc.

Commercial Company Website

Mar 2023 - Mar 2023

https://mustansirbharmal-portfolio.github.io/oceantech/

I created a website of a company as just of project purpose, by using HTML,CSS, Bootstrap and JavaScript. The speciality of this website is that it only 5 lines of CSS code. The whole website is design by using Bootstrap.
